

【Multiple login error】

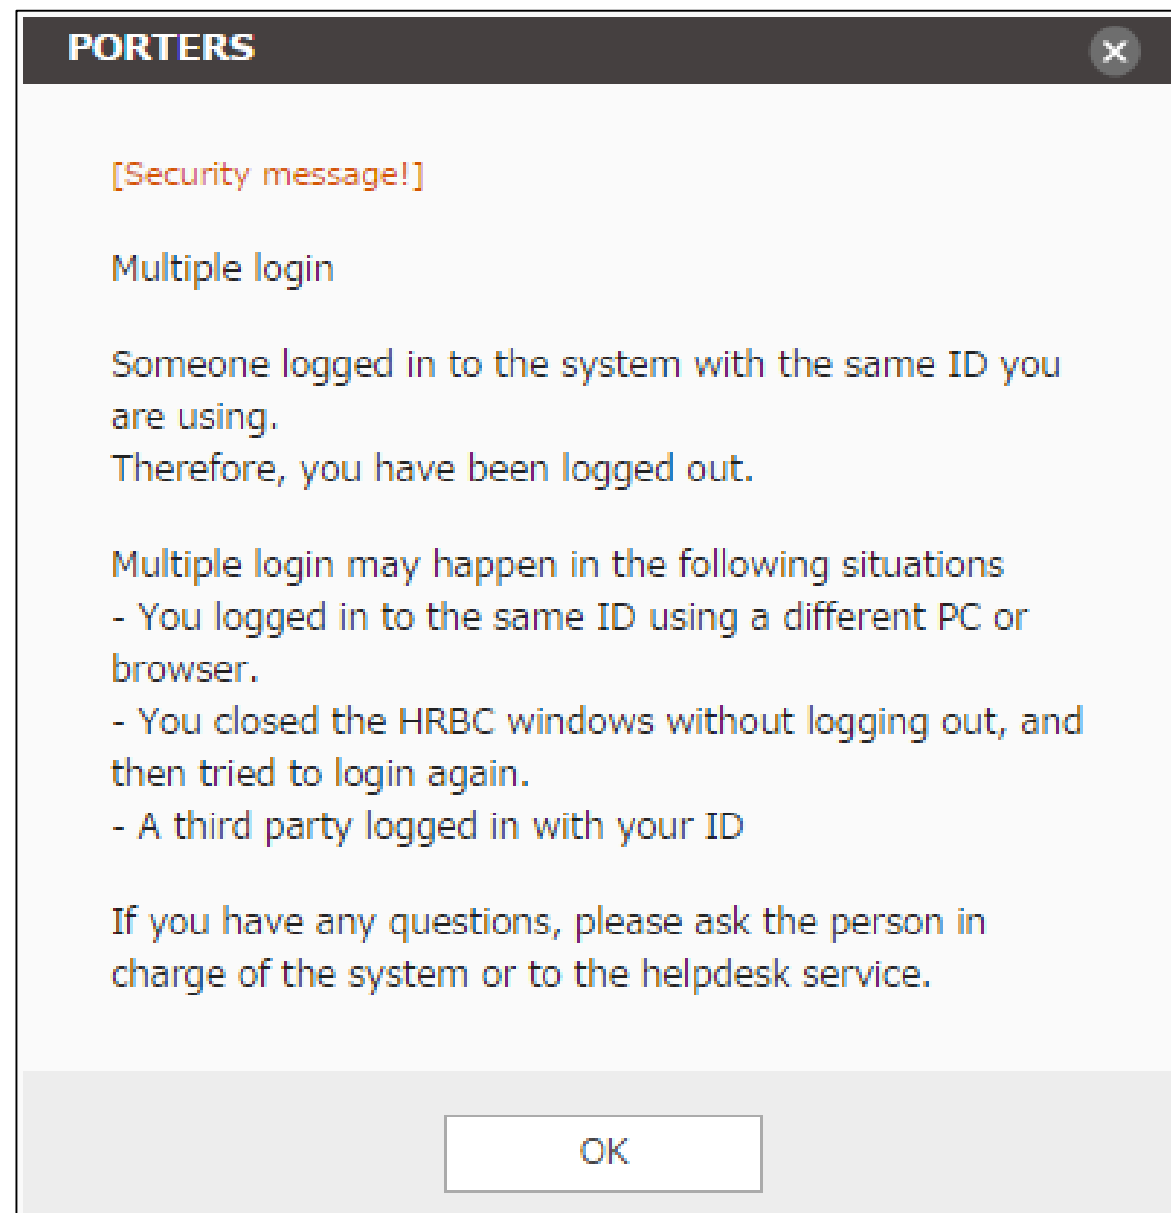

As part of the HRBC security improvement, if a user logs in while the user account is already logged in via another PC or browser, security warning dialog will be displayed and the first user will be logged out. The user that logged in second can continue using the system.

※Only the registered user is allowed to use the HRBC user id as stated in the HRBC Terms of Agreement.

Also, if there is a possibility that an unknown user logged in, please change your password as soon as possible.

(You can change your password from the Name menu “Password” at the upper right corner)

■ This security warning dialog will appear on the screen of the user that logged in first.

■ This security warning dialog will appear on the screen of the user that logged in second.
